

fine art & paintings

Original and unique fine art and paintings!
Private one-on-one workshops!

Pepper Art & Design (Karen Pepper) is a full service art and craft studio. Karen was born and raised in South Africa and has spent the past 34 years working as a professional artist and designer. Now settled in the UK, her home studio is fully functional and she continues to enjoy the success and status earned to date.

Original paintings and artworks in oil, acrylic, watercolour, chalk pastel and mixed medium on canvas, paper and board. Karen's work emerges expressively from the automatism of her subconscious mind, and is characterised by a balance between spontaneous gesture, continual control and decorative detail.

"I view my art as a physical and spiritual experience that satisfies my great need for aesthetic and intellectual intensity. I am passionate about colour, texture and movement and my work is a reflection of my inner vision of the world around me". Karen also has a wide range of skills and many years experience in crafts such as fabric painting, stained glass and home decor using recycled objects.

Pepper Art & Design (Karen Pepper) also offers private one-on-one adult workshops in a relaxed, cosy and friendly studio where self expression and individuality is encouraged. Karen caters for all levels of experience and she offers a diverse range of exciting projects as you explore and discover the wonderful world of art and crafts!
